HINTS FOR THE WARM SEASON.

RHEUMATISM,
and will eradicate mercury from the system infinitely faster and better than the common Sarsaparilla preparation The *Dandelion and Tomato Panacea* is, as all must be aware from the ingredients of which it is compounded the best as well as the safest
Spring and Summer Medicine

Jaundice Complaints
are most prevalent The symptoms of these complaints are
Drowsiness, Dimness of Sight, &c
It has proved itself a most astonishing and effectual remedy for that worst of all maladies,
The Piles,
because it cleanses and enables the stomach to discharge into the bowels, and causes a free circulation and regulates the whole system, and thereby prevents
Costiveness
In cases of Costiveness, either of recent or long standing, it has proved itself effectual after all other remedies have failed
Scrofula, or King's Evil,
and all other eruptions of the skin are caused by the impure state of the blood, and to have pure blood a medicine should be occasionally taken!— The Panacea is wonderful in its effects for purifying and
Cleansing the Blood,
and is therefore a preventive for all eruptions of the skin and will eradicate
Humors
of long standing, and in fact it is requisite for the promotion of
Sound Health
from the most exhausted constitutions

N. H. DOWNS'
Vegetable Balsamic Elixir.
The great Northern Remedy for CONSUMPTION.
Also for the cure of Colds, Coughs, Whooping Cough, Croup, Bleeding at the Lungs, Bronchitis, Catarrh, and all diseases of the Pulmonary or Bronchial Organs
It is now more than ten years since this incomparable remedy was given to the public with what success the thousands of restored invalids with the universal encomiums of a grateful people, afford abundant and gratifying evidence Indeed no medicine has ever with such UNIVERSAL SUCCESS grappled with disease It is its own best commendation, and to be valued needs but to be known
Its operation upon the system is marked and peculiar from that of most similar preparations
Its *EXPECTORANT*, and most essentially aids in the expulsion from the stomach and lungs of phlegm and phlematic humors, through the process of expectoration or spitting
It is *SUDORIFIC* and promotes a healthy perspiration, thus expelling by the pores of the skin those nauseous fluids and impurities of the blood the retention of which in the system is a prolific source of suffering to the invalid
It is slightly *CATHARTIC* and usually corrects any costiveness attendant upon Pulmonary complaints, while most similar preparations produce a contrary effect thus adding to instead of diminishing that difficulty (See statements of Mr Meader, Mr Ross and others, in the pamphlets and sheets)
We do not pretend that the Elixir is a specific for all the ills that flesh is heir to, but we do say and can confirm by incontestable evidence, that for CONSUMPTION it is unequalled Hundreds by its use have been snatched from an untimely grave, and hundreds more who delayed too long its use have found even then that relief from suffering which they had vainly sought from every other source
For hard and obstinate COUGHS whether produced by a mere cold, the relic of a fever or the result of a more fixed and permanent pulmonary habit it is just the thing needful, as by its wonderful expectorant qualities it loosens the cough and enables the patient to raise with little effort what would otherwise cause hours of hard and laborious coughing Many persons testify that after having been unable to obtain more than a slight degree of rest for weeks they have on taking the first dose obtained a comfortable night's rest and by continuing its use in a short time have been restored to health
OBSTINATE COLDS AND COUGHS it will usually cure in from two to five days
To persons afflicted with *WHOOPING COUGH* we would especially recommend the Elixir as it relaxes the cough, and saves much of the labor of hard coughing usually attendant upon that disease
ASTHMA We believe it is a generally acknowledged fact, wherever the medicine is known that nothing so generally gives relief—in so great a proportion of instances effects a perfect cure in this distressing malady, as Downs' Elixir (See certificates of Mr Carleton Mr Perkings, and others in pamphlet)
CROUP This dangerous malady in children may be cured by Downs Elixir We speak confidently having never known, among the hundreds of instances in which it has been used, one where it has failed after a fair trial
BLEEDING AT THE LUNGS In this dangerous and formidable disease, the success of the Elixir has been such that we feel authorized in saying no preparation has ever met with similar success It has rarely, perhaps never been known to fail where it has been early resorted to and the directions faithfully followed (See statements of Mr Meader Mr Walker, Mr Downs, Aldermen Morton and others in the sheets and pamphlets.)
Testimonies of its efficacy enquire of those who have used it Enquire of the Agents who sell it They generally either from experience or observation, know of its merits and when they tell you of its effect —what they have seen and what they know—are entitled to your confidence
Pamphlets and sheets may be had of agents gratis, giving a full description of the medicine, &c

AND the best medicine known to man for Asthma of a very stage Liver Complaints Bronchitis Influenza, Coughs, Colds Bleeding of the Lungs Shortness of Breath, Pains and weakness in the side breast &c and all other diseases of the
PULMONARY ORGANS.
A very important disease also over which this Balsam exerts a very powerful influence is that of a
DISEASED LIVER.
In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed and in numerous instances when patients had endured long and severe suffering from the disease without receiving the least benefit from various remedies and when MERCURY has been resorted to in vain, the use of this Balsam has restored the LIVER to a healthy action, and in many instances effected
PERMANENT CURES.
after every known remedy had failed to produce this desired effect
Opinion of a Regular Physician.
Exeter, Me, Sept 30, 1845
This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the lungs, for two years past, and many bottles to my knowledge have been used by my patients, all with beneficial results In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.
E BOYDEN, Physician at Exeter Corner
NO QUACKERY! NO DECEPTION!
All published statements of cures performed by this medicine are in every respect TRUE
BEWARE OF COUNTERFEITS AND IMITATIONS! The unparalleled and astonishing efficacy of Dr Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended during many years after the skill of the best physicians was unavailing, has effected a large and increasing demand for it This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance, for the genuine Balsam

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise As literary organs they stand far in advance of any work of a similar stamp now published while the political complexion of each is marked by a dignity, candor and forbearance not often found in works of a party character
They embrace the views of the three great parties in England—Whig Tory and Radical—Blackwood and the London Quarterly are Tory, the Edinburgh Review Whig and the Westminster Radical The Foreign Quarterly is purely literary being devoted principally to criticisms on foreign Continental Works
The prices of the REPRINTS are less than one third of those of the foreign copies and while they are equally well got up, they afford all that advantage to the American over the English reader

The Whig Nomination for Governor.

We to day place the name of the whig candidate for Governor at the head of our columns This would have been done several days since but for our absence from the city, and to this cause alone, must the delay be attributed

Mr Bronson is every way worthy the hearty support of the whigs of Maine As a man of education, of enlarged views, of deep patriotism, of political experience and of moral worth he is eminently worthy of the entire confidence of the people of Maine and of their enthusiastic support at the polls He is moreover the representative of whig principles and the able advocate of their measures He manfully opposes the political quackery of experimenting upon the business and industry of the people He opposes the aggressions of the slaveocracy upon the rights of the free States He is ever ready to protest against political wrong doing, injustice and fraud That we rightly represent the views of Mr Bronson, may be seen by the following remarks of the editor of the Kennebec Journal, Mr Bronson s neighbor and political and personal friend

"Mr Bronson, formerly a resident of Anson in Somerset County, is now a citizen of Augusta, and is a gentleman every way worthy to receive the suffrages of the people, and to occupy the chair of State His experience in matters of legislation and public policy extends through many years, both in the State and National councils Though not known for his much speaking, still his voice has been heard upon all necessary occasions, in effective and eloquent defence of the right, and severe denunciation of the wrong His unobtrusive and constant devot on to his duties on the floor of Congress won for him the respect and esteem of all parties In our own Legislature he has sustained a similar character—that of a faithful, honest and diligent public servant, devoting his energies to the performance of his legislative duties, instead of studying for popularity or talking for out door effect

In his private, personal and business relations he is affable and liberal in all his dealings with his fellow-men—cheerful and urbane in his deportment—he has uniformly drawn to himself the personal regard and public confidence of every community in which he has resided

But above and beyond all personal considerations, Mr Bronson is commended to the support of all independent men, by the zeal and energy with which he has for many long years combatted the dangerous and destructive principles and practices of office-seeking, spoils hunting politicians, who have obtained the lead of the dominant party, through corruption and fraud, and kept themselves in power and place by deception and falsehood He has always been a true Whig in every sense of the word, and will do honor to the party in any and every station where he may be placed

Let us support him with hearty good will and determined energy Let us battle the powers of corruption with the zeal and activity of other days, and the victory will rest upon the banner of free principles, home industry and party purity Let not one State longer continue the "natural ally of slavery Let not our representatives longer contribute to the maintenance and extension of that great system of blood and tears, whose rulers and directors have obtained, through dough faced northern servility and appetite for office, a commanding control in the councils of the nation Shame, sackcloth and ashes should rest upon the heads of that party who have thus sacrificed New England s freedom and New England s interests at the shrine of unholy avarice and unscrupulous selfishness If we cannot restore the predominance of freedom, let us at least come out from among the swelling numbers of slavery in our National councils, and advocate, if we cannot obtain, the personal and political liberty of the whole people Such a station we can never occupy in our federal relations, so long as that party remains in power here, which looks to the South for place and profit—which concedes everything to Southern demands, in order to secure the pecuniary rewards of party subservi ency

Let us, then, look to New Hampshire as an example of political regeneration, and go and do likewise

☞ The Washington Union seems to be very sure, that all the doubtful ones in the Senate are secured, and that the Tariff of 42 is doomed.

The New York Post states that the Tariff bill will be passed by the casting vote of Vice President Dallas

Among the last rumors connected with this subject, is one that Mr Haywood, of North Carolina, has resigned his seat in the Senate, in view of his inability to vote with his party and at the same time in accordance with what he supposes to be the prevalent opinion in his own State

There is a slight hope that the bill may be defeated, but, we think, it will pass Locofocoism is bound to do its worst

☞ The potato rot has appeared in the field at one of our neighbors The vines appear vigorous—the foliage unimpired by bug or worm or atmosphere—and the first appearance of the trouble is the falling over of the healthy looking vine, the root having rotted. As yet only a few of the vines have been affected and to what extent the crop may be injured cannot at present be determined

We noticed a few days since, that the potatos in Massachusetts appeared highly prosperous and we had the pleasure of eating excellent new potatos raised upon a meadow near Lowell. There was no appearance of disease on any of the potatos or vines and the crop is now near maturity

Address of Hon. J. R. Giddings of Ohio.

On Tuesday evening, the Hon J R Giddings of Ohio, by invitation, addressed a public meeting of our citizens in the square in front of the Court House He was introduced by the Mayor of the city and was received with demonstrations of satisfaction by a large meeting — After a few preliminary remarks disclaiming any personal merit for his official course in Congress, because as he said, he had but discharged his imperative duty, he proceeded with a brief and clear statement of the rights of the free and of the slave States, under the constitution, respecting the institution of slavery It was the unqualified constitutional right of the Slave States to hold slaves Slavery is constitutionally purely a State institution, and while the slave States possessed the unqualified right to maintain slavery, the free States possessed in equal degree the right to be free from the support of the institution

He then referred to the several events in the history of our country showing the aggressive course of the slave power over the rights and interests of the free States, until at length, in the present Congress, those measures deemed of vital importance to the prosperity and welfare of the free states have been struck down, and a war is in progress for conquering new slave territory, and the announcement has been made by the official organ at Washington that this is to be the settled policy of the government, and leading men in power have declared that this would be maintained by the admission of new slave States as fast as needed to preserve the ascendency of this power in the administration of the government The whole of the State of Texas has less inhabitants than some single representative districts in some of the free States and yet she is allowed two Senators and two Representatives in the Congress of the United States

The prospect thus opens before the free States of having all their rights overwhelmed by the onward course of the slave power What was, at the formation of the constitution, allowed to remain as a purely State institution and permitted to continue such by a silent acquiescence out of courtesy, has become interwoven with the general administration and legislation of the country until its support, perpetuity and extension have become the primary objects of the general government This state of the case demands the cooperation of the people the whole people, independent of party, of all the free States The duty is upon them to demand their just rights These they could maintain and enjoy without interfering with the rights of the slave States There is no need of going to the South and aiding in the escape of slaves No need of interfering with their State legislation or domestic regulation respecting slavery It is only necessary that the free electors of the free States demand that their rights under the constitution be no longer trodden in the dust by the aggressions of slavery This they can do by electing men of intelligence and integrity who will not basely truckle at the bidding of the slaveocracy, nor barter the rights of the free States for the crumbs which fall from the executive table

Mr Giddings urged upon his hearers of every party, to support only those men for office who

ascendency of the free States in the Senate of the United States has been lost and cannot be regained, and a war of conquest is now in progress for the acquisition of territory out of which to erect new slave States But the free States with their dense populations, may by a united effort elect a president of the United States and control the house of representatives Here then is furnished, by the necessities of the east, a basis upon which all may, at least in their respective parties, labor for their rights, and aid in securing the welfare of the whole people

We have not attempted to make use of the language used by Mr Giddings, and we have not space for introducing the numerous facts cited by him It has been our aim to give a general view of the scope and bearing of his leading idea

He desired any one to propose questions and be answered, with great freedom, many questions proposed by his hearers This was a very interesting part of the exercises and was well calculated to illustrate and enforce his main positions

The address was listened to with marked attention and often interrupted by marks of applause, and when he closed three hearty cheers burst from the crowd

☞ Flour has advanced about 6 cents per bbl in New York since the news was received of the final passage of the new British Corn Law — This looks like a very small slice of "bread" for an enormous quantity of "sack If this is the feast to which the free traders have invited the western farmers, we think very few of them will partake of it The idea of anything like an extensive market in England for the surplus bread stuffs of this country is a fraud and a humbug —Boston Mail

☞ The funeral of George W Tasker Esq Merchant o this city, was attended on Tuesday at the Universalist chapel A large procession of the order of Odd Fellows attended It gave us great pleasure to observe the editor of the Gazette filling the office of chaplain of the Lodge This indicates a great change in his views respecting the order and we trust he may continue to make progress in every noble undertaking

The New Bedford Bulletin mentions that the sloop Native, of Nantucket, attempted to leave the island on Thursday night, with a quantity of goods stolen from the fire Suspicions having been excited, the owner of the goods obtained permission to search for them only by threats to bring a cutter to his aid

The steamboat Empire made a passage recently from Chicago to Buffalo in 58 hours and 48 minutes The distance from Buffalo to Chicago is 1000 miles at least, and the boat must have made, on an average, more than 15 miles an hour

☞ The Mechanics Association will hold a meeting this evening at their Hall to make arrangements for the approaching festival

☞ We tender our sincere thanks to Jerome & Co. for papers, received through their Express, yesterday

Arrival of Volunteers.

The New Orleans Bulletin of the 10th inst says the first regiment of Ohio Volunteers, commanded by Colonel Mitchell and Lieut Col Weller, arrived here yesterday by the steamer New World and Carolina, from Cincinnati, and are encamped at the battle ground below the barracks

In addition to he vessels chartered by the Government on Tuesday last to transport troops to Brazos, St Jago, we learn, says the Bulletin, that the ships Gen Veazie and Gov Davis, have been added to the number The ships Sea Lion and Shanungo, were taking on board yesterday, the 2d Regiment of Kentucky volunteers and were to leave last night for Brazos St Jago

Death of Capt Page.

It is said that this gallant officer, who was so badly wounded in the face at the battle of Palo Alto, died on board the steamboat, which was conveying him from New Orleans to Jefferson Barracks The statement that he had arrived at Baltimore appears to be incorrect

The Rumored Capture of Tampico.

The Courier des Etats Unis, speaking of the report brought by the Spitfire, says — The story of a city taken by a single sloop of war is in itself improbable enough, but this is still further contradicted by the silence of the Havana Journals of the 5th inst, received yesterday by the Norma These journals also stamp with falsehood the rumor, that Santa Anna has left Havana for Vera Cruz

Mexican Privateers.

We are happy in being able to give our readers a probable solution of all the peculiar circumstances connected with that privateer, as related by Capt Young, of the Telegraph at Kingston, Jamaica

It seems that on the day stated, the 20th of May, when two captured American vessels were observed as "at anchor under the guns of a Mexican privateer the rakish schooner Spitfire, formerly a slaver, now a peaceful merchantman, was off Cape Antonio and having a party of ten or twelve persons on board, at the time the Telegraph hove in sight, she hoisted the Spanish flag and fired a few guns, upon which the brig showed British colors and crowded sail to reach Jamaica, carrying the news which has so startled the underwriters throughout the country

As this privateer, seen under so many shapes, has not, probably turned out to be manned by simply men in buckram we hope this paragraph will set at rest the fears of those who in American bottoms, do their business in the great waters

From New Orleans

A letter from New Orleans received at the Merchant s Exchange, dated July 11, states that the whole fleet of vessels which sailed from the North, from the 25th of May to 1st of June have arrived together and that the captains after deliberation, have come to the conclusion that there never has been since the year 1797, so strong a current in the Gulf of Mexico setting to the Northward, as was experienced during this passage Capt Dorr, of ship Concordia, was sun struck a few days since, but is slowly recovering There is a large camp of volunteers at the battle ground They all carry small arms about their person, such as bowie knives, dirks and pistols with which their belts are overloaded Barque Kazan has been chartered to carry troops to Brazos for $2,000

Affairs at Washington.

twelve millions to pay the U S volunteers was passed

Mr Cameron presented the proceedings of a democratic meeting in Northumberland county, Pa, against the repeal of the Tariff of 1842 — Mr C said the panic talked of really existed and was spreading—it extended all over Pennsylvania It was not a whig panic, but a democratic panic

Mr Webster made some observations in relation to the closing remarks of Sir Robert Peel in his last speech He said that all eyes in England were turned to the action of Congress on the Tariff By a document just presented, it would appear that a contrary blast was coming from Pennsylvania Mr W asked the Senators from Pennsylvania, whether Polk, Dallas, and the Tariff of 1842 was not on all banners in Pennsylvania, during the electioneering campaign of 1844?

Mr Cameron said they were, and the first could not have been elected without the last — The Tariff was paramount to all other considerations

The Treasury Note Bill was taken up

Mr Niles spoke in favor of the bill, and against the bill to reduce the tariff

Mr Benton s amendment was rejected by a vote of 16 to 33

The bill then passed without division

The Tariff bill was then taken up

Mr Johnson, of Maryland, took the floor and addressed the Senate against the bill, in a very able and instructive speech

In the House, the bill for the relief of the heirs of Robert Fulton was discussed at length

Mr McDowell, of Ohio, opposed it, and read a speech once made by Silas Wright against the claim

Mr Crozier asked how Wright *voted* on the occasion, for he understood it was his custom to *speak* one way and *vote* another

Mr J Q Adams spoke warmly in favor of the bill

The bill was passed by a vote of 90 to 67

Comparison of Profits between Manufacturers.

The Government of the United States, it is well known, have a large manufacturing establishment at Washington, called the Government Printing Office the ownership of which is invested in Messrs Ritchie & Heiss, two of the most zealous democrats in the Union In their paper called the Union they complain of the great profits made by the manufacturers, in consequence of the Tariff of 1842

Now let us compare the profits of the cotton manufacturers which Messrs Ritchie & Heiss say sometimes amount to twenty per cent per annum with the profits of said Ritchie & Heiss on a single Congressional document, namely the Report of the Commissioner of Patents It is admitted that the profit on that document amounted to over sixty thousand dollars, (we think a great deal more)—Now if the cotton manufacturers do divide twenty per cent, under the present Tariff, (ten per cent would be nearer the average,) then Ritchie & Heiss's profits on the Patent Report are equal to the dividends of three manufacturing establishments of $100 000 each, employing whole villages of poor families, instead of furnishing money for champagne and other luxuries at Washington —[Express

Mr. Brinkerhoff.

This notorious individual, who has disgraced himself in the estimation of all parties, and who was belabored like a dog by the Union for daring to *think* aloud—now that he has, spaniel like, kissed the hand that smote him and falsified his solemn declarations to the Nation, must feel rather awkward at reading such commendations as the following His proclamation of honesty and independence pleases his Western friends, and the Cleaveland Plain-dealer, an ultra Loco Foco paper, put forth the following approval of Mr Brinkerhoff's course, and defiance to the South What other loathing must the editor now feel for the low creature who was publicly whipped into the traces by the memorable old lady of the Union and then laughed at by way of praise for his subservicency

[Cour & Enq

"Let the Tariff Stand —We are glad

to see the democratic portion of the Ohio delegation in Congress, taking the stand recommended by us some weeks ago As much as the West may need a reduction of the present tariff, the position of these representatives, under the circumstances, will be amply sustained We hope democratic Illinois, Indiana and Michigan, will follow the glorious example Let the West take to itself the responsibility and the honor of defending this measure, and let them show to the South, that though they can manacle *five millions of blacks* they cannot enslave a single white man whose "Home is in the West" Here goes our hat for the Ohio delegation! Let there be no compromise nor giving way Stand to the point, and let the Southern Hotspurs sweat! It will help them *constitutional* complaints

Hon. John M. Clayton,

Of Delaware, responding to the Committee who invited him to partake of the Philadelphia dinner speaks of so much of their letter as compliments the Whig minority of the Senate, and applies to their courage, in the pursuit of their duty, this fine passage —

Not to the enseanguin'd field of death alone
Is valor limited She sits serene
In the deliberate council, sagely seans
The source of action, weighs, *prevents* provides,
And scorns to count her glories from the feats
Of brutal force alone

The Hutchinson Family.

(CONCLUDED)

It was with great reluctance that their father notwithstanding his own musical talent, would consent to his children singing in public, accordingly some years ago he made a deed of gift to his sons of the Old Home Farm, on condition that they should all stay at home, cultivate it, and devote themselves to a quiet country life — Recollecting his own youth, and with all the old presbyterian horror of fiddling and profane music, he would not consent to money being spent on such vanities The first violin in the family was Judson s, that very one on which he now, accompanies himself so charmingly, in that sweetest and saddest of all pathetic songs, 'The Emigrant s Lament, or which supplies such comic meaning to many a comic song, as 'Down East, 'Calomel, &c To purchase this violin, Judson worked hard on the Old Home Farm, cultivating garden vegetables on his own account, until he had sufficient for his purpose — After this, of course another difficulty occurred, and this was to reconcile the father to it

Before the violin was purchased, they sometimes, when at work in the corn fields, supplied the want by a simple rustic instrument, formed from the corn stalk, called in their country the corn stalk fiddle, and Asa, who was always fond of the violoncello, used to keep time in the village choir on Sundays by rubbing his forehead against the back of the old wooden pew, by which he could produce somewhat the effect of that instrument It may not be amiss to mention here that their vocal practice was mostly in the fields—'the happiest place on earth, as one of them has said, 'to sing in, except when in an evening they returned from the fields, and all joined one chorus—father, mother sisters and brothers—in singing some good old fash oned tunes, which they had heard from infancy, which are ever new and never to be forgotten But to return to the violin, for which Judson worked so hard

He practised on his violin secretly, and in the meantime John also possessed himself of one Whether the one emboldened the other or not we cannot say, but it so happened that one day the two brothers played 'Washington s March within their father s hearing, though at that time unknown to them To their great astonishment, but to their infinite relief, he made no objection to the violins, which now came forth to open daylight, and his consent was soon after obtained to their devoting themselves to their art They now organized their little community into bands, four of whom were always to remain at home to work on their farm, whilst the others were out on their musical tours They commenced singing in public in 1841 At this very time, besides the four in England, another quartet—Joshua, Caleb, Zephaniah, and Rhoda, are traveling in America It has been beautifully and appropriately said of this interesting family, that they have one quartet in heaven, one in the Old World one in the New, and one remaining to work on the Old Home Farm.

The necessity, however, that there seemed to be for a fifth brother to accompany the quartet to England, to take the management of the business department, has led, at this moment, but three on the farm; and in speaking of them in England, we must not omit to mention this fifth brother, Jesse, of whom the public know nothing He is considered by the quartet themselves as superior to them in talent, and is also the author of several songs which they have made familiar to the public, for instance, 'Get off the Track,' 'The Slave s Appeal, 'The Old Granite State, &c Like all the rest of the family, he has his own individual calling at home and is by trade a printer The whole family are extremely attached to this brother, and it has been beautifully said by some of them when speaking of him—'When Jesse comes into the house, it is as if he brought fresh breezes from the hills with him' This is delightful, also, and gives a charming idea of the family spirit —'As soon as he was seen, while yet but a pin ger s apprentice, coming towards his home on a Saturday night, by the little footpath that crosses the hills all would set up a shout of joy —even the very dog barked for joy of his coming, or when his voice was heard, singing as he came near, the sound thrilled to every heart — There is said to be an extraordinary enthusiasm about him which carries all hearts along with him and at Temperance and Anti Slavery meetings in his native country, his eloquence and force of character are irresistible

Our readers are acquainted with the beautiful and pious custom of the Thanks-giving day, which originating with the Puritans, in celebration of the arrival of the Pilgrim Fathers, in a land of liberty and peace, is now become as much a social as a national festival The American farmer holds his Thanksgiving day at the close of the harvest, when he has gathered himself with the bounty of the year, and his heart naturally overflows with gratitude to the Giver of all good Happy in thus celebrating, perhaps on some especial day of domestic blessing, when all their members meet to rejoice together In the Hutchinson Family this festival is held in December, on the birth day of the old grand father Leavett, now turned ninety, when four generations assemble round him, to the number, on the last occasion of forty four persons This last general meeting of the family was, however, one of deep sorrow, and removing one beloved brother from earth, completed the quartet in heaven

The four younger members of the family returned home from a tour of five hundred miles, to celebrate the annual day of rejoicing, and found their brother Benjamin a young man noibly gifted like themselves, slightly unwell — Serious symptoms succeeded, and the greatest alarm spread through the family it was typhus fever, and from the first he foretold his death — before many days, the sister s husband sickened of the same complaint, and terror and dismay fell on the whole house One day Benjamin heard the dinner bell ring and said, "Let me rise and make myself ready, for that bell is for the Thanksgiving dinner Are they all come 'When you are better, replied one of his brothers "we will have our Thanksgiving dinner, we will all assemble then together, and be very joyful

The usual day of Thanksgiving came, and the two young men lay on the bed of death — The whole family were assembled, and Benjamin called them one by one to his bed s de, and shaken hands with them, and blessing them took his leave of them all Soon after this he called his brother John to him, and raising himself up sang in the most heavy inly and inspired voice, Victory Victory! This is the day of victory After this he lived a fortnight and during this time composed some very beautiful music

He was a most amiable and affectionate character, and though considered by many the figurehead of the whole family, was one of the brothers who mostly remained at home working on the Old Home Farm, for the general good — Among his favorite pursuits was gardening, he was deeply and sincerely religious, but without any gloom or severity, and was possessed, in a remarkable degree, of the power of making home happy to all around him The fever which carried off this excellent young man carried off also the sister s husband and thus the burden of their Thanksgiving hymn for the last year was the words the sweet eloquent Psalmist, "The Lord giveth, the Lord hath taken away blessed be the name of the Lord'

Such are the circumstances under which have been formed the characters of the Hutchinson family Once know them these we are no longer surprised at finding the like in persons who purport marks of original nature and simplicity, and to leave instead traces of art and conventionalism But in them the qualities which grew up on the "Old Home Farm," in the "Old Granite State, are too firmly and hereditarily grounded to be obliterated by any after circumstances They have the durability of the granite with the cordial spirit of home You feel at once, in coming in contact with them, that they are true spirits

There is a freshness, a reality, a domestic truth about them that come upon you like the freedom of the forest, the greeness of the field the elastic breath of the country In the midst of the throng of the city, and whilst administering to the pleasures of the fashionable, the spirit of the old, religious, affectionate home, never departs from them They make a conscience of singing into their hearers the sentiments which animate themselves—those of noble independence, manly simplicity, the kindest sympathies with suffering humanity, and ardor for liberty, peace, and progress Let America send us over such specimens of her children, and she will fulfil all our hopes and our earliest conceptions of her They are worthy of the country of Washington, Franklin, and Channing When once seen the heart warms to them because they are simply incarnations of the spirit of love and the luxury of elevated sentiments, and these are the qualities which, without any reasoning or striving, will draw the two countries into that bond of brotherhood which, however manners and institutions, may differ, will make them always one great nation

It will be seen that we regard this estimable family in a far higher point of view than that of mere artists or singers,—though we are fully disposed to give musical art all its glory, we look upon them as unassuming but most efficient heralds of great truths and the noblest sentiments, wherever they go Their visit will not have been in vain amongst us, and whether they return to us again or not, our warmest thanks and wishes attend them In that future primitive life, amid their native scenes, with which they please the imagination, they will, we are sure, often visit in thought the old country, where they have scatter ed the fires of their generous sympathies, and we, on our part, shall often hear in fancy the strains that have touched us more deeply than the highest triumph of art, startling and thrilling as it may be, but which falls far short of the simple yet delicious song of nature poetry and love, blended in the heart of a Christian

We cut the following from the Batavia Spirit of the Times, of June 27 It clearly shows that Wistar's Balsam of Wild Cherry has attained a high reputation in Batavia as well as in this city

Wistar's Balsam of Wild Cherry.

This is one of the very few patent medicines of the day which we can recommend with confidence to all who are affected with Coughs, Colds, or Consumption, or who are predisposed to the latter complaint. It has been used with considerable advantage by many families in town, and in a few stubborn cases has produced highly beneficial effects. Rochester Daily Adv

Editors, lawyers, clergymen, and almost every class have at last found out that Wistar's Balsam of Wild Cherry is what, "it is cracked up to be," the very best medicine to be found It cures all affections of the Lungs when nothing else will

CAUTION In setting forth the virtues of Dr Wistar's Balsam, we have no desire to deceive those who are labouring under affliction, nor do we wish to engross it more than it justly deserves Yet when we look around and see the vast amount of suffering and distress occasioned by many of the diseases in which this medicine has proved so highly successful, we feel that we cannot urge its claims too strongly, or say too much in its favor

...at the public be on their guard. Other "Balsams" and substitutes are sometimes imposed on the unsuspecting for the genuine Dr. Wistar's Balsam of Wild Cherry.—Some for the purpose of succeeding better in their pretensions, have used a part of the name of the genuine, as "Wistar's Balsam of Wild Cherry," "Balsam of Wild Cherry, Comfrey, &c," "Syrup of Wild Cherry"

FOR SALE

A TENEMENT on Essex Street owned and occupied by the subscriber.
JAPHETH GILMAN
...july 3, 1846.

Valuable Real Estate.

THE subscriber being very desirous to make sale of his Real Estate for the payment of his "just debts and incidental charges," invites the attention of those who may wish either to invest a small sum in a rising property, or to procure a convenient residence, near the centre of business.

The estates which are offered as coming under the above description are,

1st: A House and Lot on Main-street, south side, almost in immediate connection with our principal stores. The lot is 54 feet on Main-st., and 100 feet on High Lane, and contains about 5,600 square feet. The buildings are old, but the lot will be found to possess great capabilities of being made very productive. Chances for investment in property so centrally situated are not of every day's occurrence, and their value is not generally appreciated, but the subscriber, for the very "cogent reasons" above suggested, being very earnest to sell, hopes that he may, by this notice, excite the attention of those who on examination may be inclined to purchase.

The other consists of a convenient House, Lot and out-buildings situated on May-street, he lot 75 by 120.

The subscriber will feel greatly obliged to those who do him the favor to examine the premises and will be disposed to sell either or both of them for much less, than he considers their value.

Dr. S. O. Richardson's CONCENTRATED Sherry Wine Bitters.

THE Proprietor of this Medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters, that they possess a pre eminence over all others now in use for the diseases which they profess to cure

It is a well known fact that most diseases arise from a derangement of the Stomach and Bowels, in youthful adult and declining life

The extensive sympathies which subsist between these and every other part of the living body are the foundation of nervous diseases of all kinds Irregular Appetite Languor Drowsiness Wandering Pains Headache, Lowness of Spirits &c

And these in their turn give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath Jaundice Piles, Fevers Inflammatory Humors Coughs and a host of diseases which embitter life and poison all sources of enjoyment

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease When used in appropriate quantity, in cases of slight derangement of the Stomache and Bowels caused by costiveness or a slight bilious difficulty and the like whose nature needs assistance to prevent more serious consequences, they will be scarcely felt.

On the contrary in obstinate cases they frequently operate more powerfully causing two or three evacuations daily, until the circulating fluid becomes purified This accomplished they act on the system in connection with our food each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor

Dr. Sands' Improved Portable Cooking Stove.

THE subscribers after great expenditure have succeeded in bringing this admirable Cooking Apparatus to perfection, and are now prepared to furnish the public with the very best article ever invented This Stove has had three of the highest premiums awarded to it that were ever awarded to a Cooking Stove, at the Fair of the American Institute in the City of New York a Silver Medal was awarded, at the great State Fair at Poughkeepsie, N Y 1844, where was the greatest competition ever known, the first premium was awarded to it and lastly at the Exhibition and Fair in Boston a Silver Medal was awarded to it This celebrated Stove stands unrivalled in Boston New York and other places where it is in extensive use, 1800 of them were retailed by one establishment in Boston the past year, for all cooking and heating purposes it far surpasses any other Cooking Apparatus that can be produced The oven is extremely large being of sufficient capacity to admit six large pie plates or six large loaves of Bread, or even the largest pudding or bean pots in use at the same time In addition to the advantage it has over other Stoves for boiling baking washing frying heating irons, &c, it is acknowledged by all who use them that they have the best arrangement for Baking and Roasting that has ever been in use, the steam (from all the cooking) being carried off effectually This Stove being composed of two parts can be disconnected in one moment's time, so as to make two perfect Stoves which is of great value in warm weather as the summer stove which makes a handsome parlor stove may be used in the setting or dining room—and the other part in the back kitchen for Boiling or Washing, and in the fall of the year the two parts may be connected together as is represented above In fact it is impossible to tell one half of the story about this Stove, and all who feel interested to get a first rate Cooking Apparatus are respectfully requested to call at our Store and examine the above where will be found a first rate assortment of Cook Stoves Ranges, Hot Air Furnaces and Fixtures, Tin Ware, Sheet Lead Pumps Lead Pipe, Fire Frames, &c

SANDS' SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM

THE operation of this preparation is three fold It acts as a tonic strengthen nished genitive powers and restoring the appetite, as an aperient, peculiarly suited and gentle yet active laxative effect, and as an alterative purifying the fluids of the body and neutralizing in the blood the active principle of disease The many well authenticated cures of Scrofula of the most malignant character wrought by Sands's Sarsaparilla, have given it a tone and deserved celebrity But it is not alone in Scrofula nor in the class of diseases which it cleanses and purifies in many cases of the skin beneficial It is a specific in many cases of the skin and may be limited to with general results in all, it also exerts a controlling influence in those complaints which when the system has been debilitated by the use of powerful mineral medicines or other causes it will be found an excellent restorative

TRUTH IS STRANGER THAN FICTION — Let the facts speak for itself The following certificate is only another link in the great chain of testimony to its merits Let the afflicted read and be convinced what it has done once it will do again

NEW YORK July 4th 1845

Messrs A B & D SANDS—Gentlemen I feel upon my conscience to bear testimony to the value and benefit your Sarsaparilla has been to me I have been afflicted with violent ulcers more or less, for the last seven years, especially in the summer season At first they appeared in small bunches on various parts of my body, and then increased in size, attended with acute pain until they at last would break and discharge large quantities of matter, forming ulcers which soon ate a hole down to the very bone. My sufferings were intense I consulted the most eminent physicians in the city with but very little benefit. During the winter I would get some better, but when spring came they were to me as bad as ever and I felt convinced in my own mind that it would be impossible for me to live an other summer after suffering as much as I did the last but the Lord has rescued me from one year to another until I heard of your Sarsaparilla For at least four months previous to my taking your Sarsaparilla I could not sleep but a little while at a time either day or night and it was as seemed as though I should die with pain and for the want of sleep I did add to the misery of night being obliged to get up most of the time and then really be retiring to rest, I thought my children would find me dead in the morning After I commenced using the Sarsaparilla and before I had quite taken the third bottle, I took one night and feeling no pain, I thought I was dying and resolved in my mind to rise up and see if I had any strength Finding no difficulty in doing so I did after sitting up a short time I found that I felt much better and I continued to improve and I there is now no a pain about me while before it seemed as if my joints would part with pain My appetite and strength increased and I was soon able to attend to my domestic duties, and now my ulcers are all healed and my general health and strength are fully restored, all of which I ascribe to the use of your Sarsaparilla Your obliged friend

MONMOUTH, Maine March 25 1845

Messrs A B & D SANDS— Most gratefully do I embrace the present opportunity of informing you of the astonishing which about three years since proved to be Salt Rheum My body and limbs were very much swollen and sore, my skin thickened and cracked, my hands were so sore that I could scarcely attend to my domestic duties This same year the disease appeared on my arms and wrists which became very much swollen and painful in the following spring it extended to my throat and neck the glands of which were greatly enlarged, and painfully extended that the affect on me was Scrofula Every part of my body was much blotched and my lungs were so affected that I was in great danger of consumption so that I was almost deprived of my rest During this time I consulted many physicians apparently will such any benefit Effect At last I was induced to try your Sarsaparilla, which gave me almost immediate relief the floating soon subsided my throat is well I am able to attend to all my customary duties and my general health is better than it has been for ten years All of which has resulted from the use of your invaluable medicine

Feeling unbounded gratitude to you for the surprising benefits I have derived through your instrumentality, you will please accept my most cordial thanks and that success may follow success through the blessings of Providence in relieving the sufferings of others similarly affected, is the sincere wish of your friend

Highly important to all Invalids & Friends of Invalids.

THE AFFLICTED IN DANGER! SALUTARY CAUTION.

READ! READ!!

THE well established and most earned reputation of WRIGHT'S INDIAN VEGETABLE PILLS, as a Sovereign antidote, and cure in cases of Fevers, Head Aches, Indigestion Dyspepsia, Dysentery Colic Fo[illegible] mule Complaints, &c &c has excited the cupidity and envy of the proprietors of other medicines, and some have gone so far that the unpugned has attempted to impugn the efficacy of Wright's Indian Vegetable Pills

Beware of all attempts to palm off any (so called) superfeily means of spurious nauseous gnaded nostrums to the palate but require something more than a agreeable exterior to conceal what is discussed We shall not attempt to analyze the compound on of the "Sugar Coated or pretended improved Indian Vegetable Pills," which have been thrown into the market and advertised extensively in the newspapers — we have no desire to do so, nor is it necessary It is however our duty to assure the public emphatically, that they are not an improvement on WRIGHT'S Indian Vegetable Pills and that whoever purchases them, under the supposition is wofully deceived This caution is positively necessary since the title (the) the qualities set forth the constitution of ingredients &c are all those which formed the distinctive and original character of the true medicine

Remember they are none but WRIGHT'S Indian Vegetable Pills, which are protected by a patent These have attained an almost incredible sale and circulation owing altogether to their own intrinsic merits The touch the Laurel from the brow of the inventor of these medicines where it has been placed by grateful thousands who owe the continuance of the enjoyment of the blessings of health to his happy and benevolent agency

Wright's Indian Vegetable Pills

have performed wonders when used in cases of Intermittent Remittent Nervous Inflammatory and Putrid Fevers Measles, Small Pox and Erysipelas Inflammations of the Brain throat, stomach liver intestines kidneys and bladder pains in the stomach, back side consumption dropsy of the legs of the chest and of the abdomen and of the limbs, scrofula, scurvy and salt rheum, cancer gravel loss of appetite sick head ache, costiveness, boil acute and chronic spitting of blood diarrhea dysentery and colics syncope, apoplexy and paralysis despondency hypochondriasis epilepsy hooping cough Palpitation of the heart ulcers and sores of every description, hysterics weak nerves, and low spirits

REMEMBER THIS So great of Blood always arises from an inherent tendency to Pulmonary disease and if not checked at the outset will sooner or later destroy the patient A person who is so seized should at once take a good cathartic and purify the blood again unless a prompt cure is immediately completed

PAIN IN THE SIDE This distressing symptom of Consumption arises from inflammation of the Lungs or the Membrane called the Pleura, or from Bronchitis affection of the air passages in either case it is a very dangerous indication of disease It prevents full and free breathing and wears away the natural strength of the system The cause of this symptom should be removed at once and nothing can more effectually the object so speedily and happily as the Great English remedy discovered by Dr Buchan which is entirely vegetable in its ingredients and perfectly harmless in its operation

LIVER COMPLAINT In cases of Consumption the Liver is always more or less affected, and also the Spleen, Pleura, and small intestines On dissecting Consumptive patients, Tubercles are often found in all these organs, just entirely upon the Liver, which also becomes fatty or and swelled The effect of the Hungarian Balsam in diseases of the Liver especially is the most salutary and powerful

Simple disease of the Liver, private sided by Consumption is speedily cured by its use

WINTER COUGH The harsh dry hacking winter cough which afflicts all people and invalids is low state of health is happily affected by the *Hungarian Balsam*

It warms moistens and stimulates the whole breathing apparatus removes all morbid mucus and other foulness purifies all impurities that it improves the secretive power of the Liver Spleen and other large glands and the digestive organs and imparts new life to the vital and enervated system

BRONCHITIS Bronchitis, Difficulty of Breathing Hoarseness Coughing shortness of Breathing from the throat to the lungs speedily cured by the use of the Hungarian Balsam remedy now offered by *Dr Buchan*

This is a very painful wearing and injurious complaint and always has a powerful tendency to inflame and soften the Lungs and thereby to introduce the worst form of Pulmonary disease Be warned in time ye afflicted and employ this valuable remedy

TUBERCLES ON THE LUNGS The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove and cure generally esteemed we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect in all cases where there is no natural organic defect In fact, so confident is the American Agent of its power to cure the worst form of this disease that he prefers (as he has frequently stated) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the *worst of cases*

EXPECTORATION Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs The Cough which is so distressing is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage it will continue to irritate the membrane and provoke a cough Coughing is an attempt to throw off the matter and expectoration gives great relief Inability to expectorate in the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant* — It dissolves the morbid and diseased matter in the air passage changes it from a thick glutinous substance to a thin harmless fluid and throws it off with the greatest possible ease and comfort to the patient There is no better medicine in the world, if its expectorant quality alone be considered

SPASMODIC ASTHMA Simple or Spasmodic Asthma has no better remedy than the Hungarian Balsam This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy as readily as any other form of Pectoral disease

CONSUMPTION Consumption has been graphically described as *Shrinking of one's self* The Hungarian Balsam by its cleansing warming softening and animating power, produces not shrinking but *expansion*

Before its delightful influence all chills, fever night sweats costiveness blueness of the nails a hot flushed skin an uncertain strength emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun This is no delusion but demonstrable fact, sustained by incontestible proof from all parts of the country

BE WISE TO DAY Delay in any case of Consumptive tendency, is emphatically Death under all ordinary treatment The Hungarian Balsam is a great ANTIDOTE as well as CURATIVE If you have any symptoms above described, be advised in time
